Projects

Portfolio Builder

Website

Tech: Next.js, Express.js, Tailwind CSS, TypeScript

- Built a resume-to-portfolio generator using Next.js and TypeScript, enabling users to generate SEO-optimized, responsive portfolios using reusable templates.

S3 UI

Website | Github

Tech: Next.js, Tailwind CSS, TypeScript, AWS SDK

- Simple S3 File Manager - A lightweight web interface for browsing, uploading, and deleting files/folders in any AWS S3 bucket using dynamic credentials stored in localStorage.

Heart Disease Predictor

Website | Github

Tech: Next.js, Fast API, Tailwind CSS, TypeScript

- ML-powered REST API using FastAPI to predict heart disease based on patient data. It uses a trained scikit-learn model and provides real-time predictions from features like age, sex, cholesterol, and blood pressure.

Movie Booking Platform

Github

Tech: Next.js, PostgreSQL(Drizzle ORM), Tailwind CSS, TypeScript

- Built a full-stack movie booking platform from scratch with seat selection, show listings, and booking management. Designed a relational PostgreSQL schema and implemented type-safe queries using Drizzle ORM.

Chat Application (Mobile App)

Github

Tech: React Native, Expo, Express.js, MongoDB, Nativewind, TypeScript

- Built a mobile chat application with user authentication and one-to-one messaging. Developed a RESTful backend using Express.js and MongoDB for user data and message persistence. Integrated API communication between the React Native client and backend services.
